

Title

FOREST FUTURES YOUTH PROJECT '97

Model Forest

Western Newfoundland

From

1997

To

1997

Keywords

Forestry, Guidebook, Issues, Retreat

Objective

The principle objectives of this project was to produce a comprehensive guidebook to forestry issues and concerns, hold a youth forestry retreat in the model forest area to examine our values and to paint a mural which expressed those values, and to explore a cross-cultural exchange between us and the native youth of Labrador.

Description

The youth caucus wrote a proposal for funding of this project and hired three youth, an outreach coordinator, an information coordinator and an artistic director. They produced a guidebook to distribute to youth groups and schools on forestry issues, environmentalism and youth. They held a youth forestry retreat where we explored our values in the forest, learned from each other and worked together to paint a mural.
