

Title

GATHERING AND MAPPING VISUAL AND OUTDOOR RECREATIONAL RESOURCE VALUES: PHASE II

Model Forest

Western Newfoundland Model Forest

From

July 1996

To

November 1996

Keywords

Recreation, Scenic Resources, Scenic Values

Objective

To develop a series of recreational brochures for the Western Newfoundland Model Forest.

Description

The Western Newfoundland Model Forest is currently gathering information on areas presently used and suited for various types of outdoor recreation. To better distribute this information to a larger audience and to highlight tourism potential, the Western Newfoundland Model Forest will develop and publish a series of recreational brochures. There will be three brochures produced featuring hiking, canoeing, and mountain biking in western Newfoundland. The brochures will provide maps and detailed descriptions of recreational routes throughout the region, spanning a range of geographic locations and types of trails. The detailed descriptions of the various routes include how to enter and exit each one, the scenic highlights and topography, along with important safety information. Signage encompassing the Western Newfoundland Model Forest logo will also be posted at the trail head of each route.

Reports and Products

Hiking Guide and Map. Nicol, K. 1996. Corner Brook, Newfoundland. WNMF: 8-104-001, Brochure.

Mountain Bike Guide and Map. Nicol, K. 1996. Corner Brook, Newfoundland. WNMF: 8-104-001, Brochure.

Canoeing Guide and Map. Nicol, K. 1996. Corner Brook, Newfoundland. WNMF: 8-104-001, Brochure.
